Japan Civil Aviation Bureau

**Forum on "Promoting the use of CARATS Open Data"**

The Committee for Promoting Renovation of the Air Traffic System (the Committee for CARATS) chaired by Professor Tetsuo Yai, Department of Built Environment, Tokyo Institute of Technology, has been having discussions toward the establishment of air traffic systems for the next generation, and measures to promote R&D of the air traffic systems have been studied as part of it.

With the objective of promoting R&D as well as expanding its horizon in the air traffic field, a policy to release data from the JCAB's database has been formulated, and JCAB has started to provide "CARATS Open Data" early this year, which includes time, position, etc. of scheduled flights in FY2012.

This forum is designed to share experiences on researches using CARATS Open Data, and it expects that R&D in the air traffic field will be encouraged, leading to the improvement in air traffic services.

1. Date: Friday, September 4th, 2015. 13:00–16:00
2. Venue: Conference Room No.104, Annex building, Ministry of Economy, Trade and Industry
3. Contents (only in Japanese)
  - (1) Keynote lecture  
(Professor Tetsuo Yai, Department of Built Environment, Tokyo Institute of Technology)
  - (2) Outline of CARATS Open Data  
(Electronic Navigation Research Institute (ENRI))
  - (3) Research presentations and Discussion about CARATS Open Data
