

- At some tourism sites, due to extended roadside parking by chartered buses, the buses park in two or three rows on the road, causing traffic congestion.
- To improve this situation, chartered bus users are strictly requested to observe following:

- ★ Have the passengers reassemble at the indicated time and place.
- ★ Have the bus come to pick up the passengers only after they have all reassembled.
- ★ Have the passengers get on and off the bus quickly.
- ★ Not to open the bus luggage compartments while the bus is on the road. Have passengers bring their handbags with them.
