

Partnership for Quality Infrastructure: Investment for Asia's Future

May 21, 2015
MOFA, MOF,
METI, MLIT

- Respond to infrastructure demand through collaboration with other countries and international organizations.
- Provide approximately USD 110 billion (about a 30% increase), for “quality infrastructure investment” in Asia over the next 5 years by making full use of Japanese economic cooperation tools, including Official Development Assistance (ODA), as well as by collaborating with strengthened Asia Development Bank (ADB).
- Pursue both “quality” and “quantity” of infrastructure by mobilizing further financial resources and know-how of the private sector.
